CDC 0728 (F 13.40) REV. 2-91

42 CFR 71.54. Etiological agents, hosts, and vectors

- A person may not import into the United States, nor distribute after importation, any etiological agent or any arthropod or other animal host or (a) vector of human disease, or any exotic living arthropod or other animal capable of being a host or vector of human disease unless accompanied by a permit issued by the Director.
- (b) Any import coming within the provisions of the section will not be released from custody prior to receipt by the District Director of the U.S. Customs Service of a permit issued by the Director.

Note: Other permits may be required.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control and Prevention (CDC) Atlanta GA 30333

To: Permittee, Public Health Service Import Permit

Re: Permit issued under 42 CFR Part 71.54 ("Etiological agents, hosts, and vectors")

Please find enclosed the U.S. Public Health Service import permit you have requested. Be reminded that the permittee must ensure that:

- 1. The enclosed import permit and labels are forwarded to the shipper(s). The enclosed permit and labels may be photocopied if more are needed.
- 2. One enclosed label (or copy of label) must be affixed to the outer shipping container.
- 3. The import permit must accompany the shipping documents.
- 4. A record of each importation (including permits and shipping documents) is maintained on permanent file.
- 5. The appropriate shipping and packaging regulations/guidelines are followed and that any other required import permit(s) are obtained (see below for guidance).
- 6. If select agent(s) or toxin(s) as defined in 42 CFR 73 are identified from diagnostic specimens, a CDC form 0.1318 (http://www.cdc.gov/od/sap/forms/01318-f.pdf) must be filed with CDC's Select Agent Program in accordance with Title 42 Code of Federal Regulations, Part 73.0. Additional requirements for facilities transferring or receiving select agents (Department of Health and Human Services): http://www.cdc.gov/od/sap

The issuance of an import permit is not an authorization to hand carry the material. If you determine that your imported material meets the definition of Dangerous Goods, and your shipment is subject to the IATA Dangerous Goods Regulations, please be aware that these materials must not be hand carried by passengers or in checked or carry-on baggage. The International Air Transport Association (IATA) Dangerous Goods Regulations (DGR), 44th Edition (2003), Section 2.3.0.1, states that:

"Dangerous goods must not be carried by passengers or crew:

- As or in checked baggage;
- As or in carry-on baggage; or
- On their person, except as noted in 2.3.2 through 2.3.5."

As defined in IATA Dangerous Goods Regulations, 44th Edition, Section 1.0:

"Dangerous goods are articles or substances which are capable of posing a risk to health, safety, property or the environment and which are shown in the list of dangerous goods in these Regulations or which are classified according to these Regulations."

Section 3.6.0 classifies toxic and infectious substances as dangerous goods Class 6, Division 6.1 and 6.2. As defined in 3.6.2.1: Division 6.2 includes substances which are infectious to humans and/or animals, genetically modified micro-organisms and organisms, biological products, diagnostic specimens and clinical and medical waste, as described in 3.6.2.1.1 to 3.6.2.1.5.
